MEMORANDUM FOR: Director of Logistics

SUBJECT

: Your Letter of 9 July 1970 Relative to

Space

Jack:

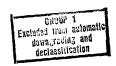

1. Appreciate your concern relative to our FY 72 space needs and your desire to at least at this point in time address that situation. I, for one, am sensitive to the limited space situation and am not sure at this writing that Carl Duckett would even entertain any official request to you for more space. Let my reply be in the nature of merely responding to your memorandum so that if some acceptable way is made clear, it can then be formalized.

25X9□

2. As now stands, we have an authorized Table of Organization of for FY 71. This will necessitate the 5700 sq. ft. which has now been earmarked for us wherever it may be. In FY 72, we have been advised by PPB that in our budget computations we should plan on an additional personnel in Headquarters for a grand total 25X9`&...□□_{of} in OSP. The additional personnel in FY 72 will necessitate in the neighborhood of 1800 sq. ft. of more floor space. To this we will have to provide for detailed personnel not slotted but assigned by other Agencies and Offices to the EOI program and whatever additional contractors are housed inside. For instance, we now have living with us 2 AF personnel, 5 contractors, 1 NPICer and 3 OCSers and every now and then parts or all of a 15-man courier system. I cannot say that our T/O will grow much more than the beyond FY 72 but I do fear that with the advent of our new program, we will have many volunteers desirous of sitting in on board. I don't expect you to even begin to worry about that and it will prob-

25X9

ably have to be something that we will have to learn to live with.

3. I can point to no specific paper signed by anyone, but
I do understand from and anyone that Col. White
has approved for the time being a T/O increase to for us.
I am happy that we are both in the space business and am even
further pleased that our space problems are in your hands, however, I will continue to attend Church services.
